Aarav Mehta

aarav.mehta@example.com | +91 98200 41725 | linkedin.com/in/aarav-mehta | github.com/aaravmehta

Skills

Languages: Python, Java, JavaScript, SQL
Frameworks: Flask, React, Spring Boot
Tools: Docker, Redis, MySQL, Git, AWS EC2

Experience

Nexthop Systems | Backend Engineering Intern | Jan 2025 - Jun 2025 | Pune
- Built a payment reconciliation service in Python handling 2,000 requests/second, cutting p99 latency 40% with a Redis write-through cache.
- Wrote 46 unit tests with JUnit 5 and Mockito, raising branch coverage from 51% to 88% across the billing module.
- Worked on backend development and helped the team with various tasks.

Projects

- Engineered a semantic document search tool using sentence-transformer embeddings and a FAISS index, returning top-5 matches across 12,000 documents in under 40ms.
- Built a rate limiter capping each API key at 60 requests/min using Redis INCR with a sliding window, benchmarked at 12,000 requests/min on a single instance.
- Created a dashboard for analytics.

Education

B.Tech, Computer Science | 2026 | CGPA 8.6/10
